

File Association.

Step by Step series.

To open a file with a program which You prefer, rather than one which is the default.

- 1. Open the Windows Explorer!
Right click Start, Explore.**
- 2. Click View, Folder Options, File Types.
Scroll down, until You find The file extension You want to change the program association.**
- 3. Highlight that association, then click "Remove"**
- 4. Find the file you want to open.
Double click the file to open!
Since now that format is not associated with any Program,
a window opens asking: Open With..... we call that,
The Open with Window.**
- 5. Scroll down to the Program, which You want to associate.
Highlight it and click "Ok"**

**Note: If You are not sure, that this is the program You want to use, Uncheck the little box next to (always use this program to open this file)
If You are sure, leave it checked!**

Possible Associations.

Wordpad: *.txt, *.rtf, *.doc, *.wri

MS Paint: *.Jpg, *.Bmp, *.gif
